Experts Association of Ecology

Association of Experts of Ecology is a non-governmental organization which was created as a response to the needs of the economy in the field of actively promoting the ecological knowledge in enterprises, self-governmental organizations and a comprehensive dissemination of information. The methods and techniques are used for the improvement and protection of the environmental quality. The overriding aim of the Association is to promote environmental behaviour of the organization and to stimulate ecological awareness to society. Through an innovative way of looking at issues, the Association is a substantive partner of self-government organizations and companies for whom pro-ecological support contributes to continuous development.

Objectives:

- Action to improve the quality of the environment,
- Prevention of environmental pollution,
- Comprehensive information, methods and techniques for the protection and improvement of the quality of the environment,
- Promote and support the principles of sustainable development,
- Stimulating ecological awareness of society,
- Protection of protected species of fauna and flora,
- Educational activities.

Range of activities:

- Organizing meetings, lectures, exhibitions, concerts and other events,
- Establishment of a centre for information on nature conservation and environmental engineering technologies,
- Advisory activities,
- Cooperation with all individuals and institutions with similar goals,
- Address applications and opinions to competent authorities and offices and courts in matters related to the objectives of the Association,
- Reviewing projects concerning the planned or planned changes in the environment and their further impact on the environment,
- Reviewing programs and projects related to the functioning of the economy and participating in the preparation of legal acts,
- Taking legislative initiatives and evaluating the functioning of legislation and providing advice,
- Participation in the work of the opinion and advisory bodies, establishing and maintaining relations with international and foreign organizations and institutions,
- Coordination of activities aimed at obtaining aid funds,
- Cooperation with local governments,
- Promoting and promotional activities including awarding for environmental performance,
- Organizing collective stands of interested members of the Association, at international, national and regional exhibitions and fairs in Poland and abroad,
- conducting training activities,
- The performance of tasks entrusted by public authorities, institutions or other business entities,
- Facilitating and supporting the economic initiatives of its members,
- Other activities implementing the statutory objectives.
